Creating Jobs and Revitalizing Our Region's Economy

In the last two years, we've lost almost 3 million private-sector jobs across the country, including more than 190,000 in Massachusetts. Today, over 8 million Americans are unemployed. It's clear that the Bush Administration's economic policies are not working. That's why I've supported economic growth plans that are fair and effective. My Jobs and Economic Growth Plan will cut taxes for working families, create 1.1 million new jobs this year, and will be fully paid for in 10 years. As our nation faces new challenges, we must ensure that working families can meet their needs today and in the future.

Defending America from Terrorism

As a senior member of the Armed Services and Judiciary Committees, I'm working to ensure that we are a safer and more secure nation. The keys to our homeland security agenda are clear: Overhauling our intelligence system to better track down terrorists; outfitting our police officers, firefighters, and emergency response personnel with the resources and equipment they need to protect Americans; and securing our ports, borders, and chemical and nuclear plants from attack. We must also ensure that while we work to secure the homeland, Attorney General John Ashcroft does not rollback our civil liberties.

Accessing Quality, Affordable Healthcare

We must provide every American with access to quality, affordable healthcare. I am fighting for a real Medicare prescription drug benefit - one that is available to all seniors on Medicare. I will continue to fight to bring down the cost of prescription drugs to help Americans achieve a secure and healthy retirement. We must also address the needs of the 43.6 million uninsured Americans. Clearly, the time is now for universal health coverage for all Americans.

Congressman Meehan discusses his plan to reduce high prescription drug costs with area seniors on January 23, 2004.
